

check50

cs50/problems/2025/x/readability

:) readability.c exists

Log

```
checking that readability.c exists...
```

:) readability.c compiles

Log

```
running clang readability.c -o readability -std=c11 -ggdb -lm -lcs50...
```

:) handles single sentence with multiple words

Log

```
running ./readability...  
sending input In my younger and more vulnerable years my father gave me some advice  
that I've been turning over in my mind ever since....  
checking for output "Grade 7\n"...  
checking for EOF...  
checking that program exited with status 0...
```

:) handles punctuation within a single sentence

Log

```
running ./readability...  
sending input There are more things in Heaven and Earth, Horatio, than are dreamt of in  
your philosophy....  
checking for output "Grade 9\n"...  
checking for EOF...  
checking that program exited with status 0...
```

:) handles more complex single sentence

Log

```
running ./readability...  
sending input Alice was beginning to get very tired of sitting by her sister on the  
bank, and of having nothing to do: once or twice she had peeped into the book her
```

```
sister was reading, but it had no pictures or conversations in it, "and what is the use  
of a book," thought Alice "without pictures or conversation?"...  
checking for output "Grade 8\n"...  
checking for EOF...  
checking that program exited with status 0...
```

:) handles multiple sentences

Log

```
running ./readability...  
sending input Harry Potter was a highly unusual boy in many ways. For one thing, he  
hated the summer holidays more than any other time of year. For another, he really  
wanted to do his homework, but was forced to do it in secret, in the dead of the night.  
And he also happened to be a wizard....  
checking for output "Grade 5\n"...  
checking for EOF...  
checking that program exited with status 0...
```

:) handles multiple more complex sentences

Log

```
running ./readability...  
sending input It was a bright cold day in April, and the clocks were striking thirteen.  
Winston Smith, his chin nuzzled into his breast in an effort to escape the vile wind,  
slipped quickly through the glass doors of Victory Mansions, though not quickly enough  
to prevent a swirl of gritty dust from entering along with him....  
checking for output "Grade 10\n"...  
checking for EOF...  
checking that program exited with status 0...
```

:) handles longer passages

Log

```
running ./readability...  
sending input When he was nearly thirteen, my brother Jem got his arm badly broken at  
the elbow. When it healed, and Jem's fears of never being able to play football were  
assuaged, he was seldom self-conscious about his injury. His left arm was somewhat  
shorter than his right; when he stood or walked, the back of his hand was at right  
angles to his body, his thumb parallel to his thigh....  
checking for output "Grade 8\n"...  
checking for EOF...  
checking that program exited with status 0...
```

:) handles multiple sentences with different punctuation

Log

```
running ./readability...
sending input Congratulations! Today is your day. You're off to Great Places! You're
off and away!...
checking for output "Grade 3\n"...
checking for EOF...
checking that program exited with status 0...
```

:) handles questions in passage

Log

```
running ./readability...
sending input Would you like them here or there? I would not like them here or there. I
would not like them anywhere....
checking for output "Grade 2\n"...
checking for EOF...
checking that program exited with status 0...
```

:) handles reading level before Grade 1

Log

```
running ./readability...
sending input One fish. Two fish. Red fish. Blue fish....
checking for output "Before Grade 1\n"...
checking for EOF...
checking that program exited with status 0...
```

:) handles reading level at Grade 16+

Log

```
running ./readability...
sending input A large class of computational problems involve the determination of
properties of graphs, digraphs, integers, arrays of integers, finite families of finite
sets, boolean formulas and elements of other countable domains....
checking for output "Grade 16+\n"...
checking for EOF...
checking that program exited with status 0...
```
